年	月	学歴・職歴（各別にまとめて書く）
学歴		
2015	4	Dowal School Enter School
2020	3	Dowal School Graduated
2021	8	Gannon University Computer Science Admitted
2025	5	Gannon University Computer Science Graduated
2019	4	Appointed President of the Computer Club
2020	3	Won technical competition (Game Development category)
2025	10	Entered ISI Japanese Language School
職歴		
2023	6	Joined Dinant Company as an intern
2023	7	Completed internship and left Dinant Company

年	月	免許・資格
2023	8	Honduras Driver License
2022	12	Harvard University CS50's Introduction to Computer Science
2022	5	Extreme Networks Introduction to Future Networks

年	月	免許・資格
2023	8	Honduras Driver License
2022	12	Harvard University CS50's Introduction to Computer Science
2022	5	Extreme Networks Introduction to Future Networks

志望の動機、特技、好きな学科、アピールポイントなど

My adventure started at 14 years old after viewing a video about game development in computer class. The video intrigued me, and I decided to start this journey into game development, not knowing the hardships I would have to go through. After winning my first competition showcasing my first-person shooter game made using C++ and Unreal Engine, I had found my passion for programming. From there on, I kept pushing forward every day, learning new languages, algorithms, and developing new projects. I won a second award at 18 years old with a survival game, developed web applications during my internship for stakeholders, and created a Neovim plugin for Copilot with 95 stars.

Every new project I worked on increased my passion for programming. I hope to use all the skills I have acquired and my passion to help develop technologies that assist people, as well as take on new challenges that will contribute to your company's success.
